

NAZ-HSS Retained HSEQ Cover

Research shows that companies with in-house health and safety professionals have an accident rate nearly 60 per cent lower than those that only use consultants. I offer part-time Health & Safety Professional roles to M&E contractors and improve their overall safety performance that helps them to have fewer incidents, better client satisfaction and happy workforce

Save more time

I can design or manage your H&S management system, thus freeing up more of your team's time so they can focus more on delivering the job successfully.

Impress your clients

I'll work together with you as part of your team to implement systems & procedures that will impress your existing & prospective clients.

Fixed price solutions

You'll be allotted 48 hours of my time every month on a fixed price package that will cost less than hiring unskilled staff on minimum wage.

Fully qualified

NEBOSH certified/Tech IOSH and 8 years industry experience in MEP background.

**From only
£1,390/month**

WORKING WITH ME

Your own in-house HSEQ Manager that offers

Custom Performance Dashboard

I will hold monthly meetings with your directors & SPMs to review the HSEQ performance of your project, using your own designated interactive Dashboard, which will be used to measure, monitor, and manage Key activities, processes and other KPIs.

Audits & Inspections

Together we will agree on the frequency of periodic Internal audits for your sites & offices. This will allow us to identify and isolate risks and develop a prioritised plan of action to improve and sustain your Health and Safety performance.

Incident Investigation

I have investigated over 100s incidents, from RIDDOR to LTIs to HiPos such as pipework pressure leaks, Electrical incidents, etc. I am experienced in undertaking a comprehensive investigation together with the root cause and corrective actions.

sub-contractor vetting & support with completing PQQs

I am experienced in vetting the sub-contractor for Tier 1 contractors; moreover, As part of our contract, you will have my professional-looking CV and a service level agreement to give confidence to your client at the vendor on-boarding.

Pro-active not re-active

My approach to working is always being proactive. I believe in eliminating the hazard before it could cause the risk of harm. Because of this, I have a track record of having a remarkably low AFR rate and no Lost time in the past 20 months.

A lot more

I can also produce and review quality MEP RAMS and support in developing sound SSOWs and can offer a lot more. What's more, if you're not fully satisfied, you'll have the option to terminate the agreement; T&Cs apply.
